GitHub: github.com/Hrithik1-sudo Mobile: +91 9906232302

SKILLS

Languages: C++, Javascript, C, Java, Python, CSS, SQL
Frameworks: ReactJs, NodeJs, PHP, NextJs, Tailwind Css, Express.js, JWT, Socket
Tools/Platforms: MongoDB, MySQL, Postgres, Git & GitHub, Postman, Netlify, Vercel
Soft Skills: Problem-Solving, Leadership, Time Management, Desion Making, Analytical Thinking

PROJECTS

VH Design-Freelancing Portfolio | *React.js, Node.js, Express, MongoDB, CSS* | *GitHub* | *Link* Dec 2025 - *Jan* 2026

- Developed and deployed a responsive portfolio website using Next.js and React.js to showcase projects, skills, and contact information
- Architected the application using a component-based structure, creating reusable and modular react components to ensure scalability, maintainability, and clean code organization.
- Styled the application using Tailwind CSS, ensuring clean design, responsiveness, and cross-browser compatibility.
- Focused on delivering a visually appealing, fast-loading, and user-friendly web experience aligned with modern frontend development standards.
- Integrated contact functionality and project showcase sections for better user engagement.

SmartFolio-Financial Portfolio | *React.js, Node.js, CSS , JWT, MongoDb, Vercel* | *GitHub* | *Link* Sept *2025* - Oct 2025

- Developed a full-stack financial portfolio management system enabling investors to track multiple portfolios (Stocks, Crypto, ETFs, Bonds, Mutual Funds).
- Implemented secure authentication with JWT and bcrypt, including role-based access control (Investor/Admin) with admin approval workflow.
- Built dynamic dashboards with Pie, Bar, and Line charts using Recharts to visualize asset allocation, profit/loss trends, and risk distribution.
- Designed scalable database schema using Mongoose ODM for Users, Portfolios, Investments, and Market Cache.

TRAINING

Cipher Schools (Edtech Company) | Link Jun 2025 - Jul 2025
Data Structure and Algorithms using Java

- Gained hands-on experience in implementing core data structures such as arrays, linked lists, stacks, queues, trees, heaps, and graphs in Java.
- Developed efficient algorithms for sorting, searching, recursion, dynamic programming, and greedy techniques, improving problem-solving speed and logic building.
- Analyzed time and space complexity using Big-O notation to write optimized and scalable Java solutions.
- Improved problem-solving speed and coding efficiency through structured practice.

CERTIFICATES

The Science of Well Being | Coursera | Link	Jan 2024
SQL Advanced | HackerRank | Link	Dec 2025
Cloud Computing | NPTEL | Link	Nov 2025
Master Generative AI | Infosys | Link	June 2025

ACHIEVEMENTS

RATING IN HACKER RANK

Achieved 4★ rating on HackerRank, demonstrating strong problem-solving and algorithmic skills.

HACKATHON

Secured 5th Position in the WebX Innovation Hackathon, competing against multiple talented teams.

NCC CERTIFICATE

Completed National Cadet Corps (NCC) Certificate demonstrating discipline, leadership, and teamwork.

EDUCATION

Lovely Professional University *Phagwara, Punjab*
Bachelor of Technology *Aug 2023 – Present*
Computer Science and Engineering:- CGPA: 7.8

MHAC School *Akhnoor, J&K*
Intermediate *Mar 2022 – May2023*
PCM; Percentage: 67

MHAC School *Akhnoor,J&K*
Matriculation *Mar 2020 – May 2021*
Percentage: 81.2
